INTRODUCTION

Welcome to our Mobile Business Ideas Simplified masterclass! In today's digital era, running a business from your cellphone is not only possible but also highly rewarding. Whether you're looking for a side hustle or dreaming of being your own boss, this masterclass will show you practical ways to start and grow a successful mobile-based business. Join us as we explore the exciting world of smartphone entrepreneurship and learn how to leverage technology for business success.

MEET YOUR INSTRUCTOR

Bilal Kathrada is a software engineer by profession, and an award-winning app developer, as well as the founder of IT varsity (www.itvarsity.org) and Xander Educational Apps (www.xander.co.za).

Bilal is an experienced technology leader with expertise in artificial intelligence (AI) and its applications in business. With over 25 years of experience, Bilal has been at the forefront of driving innovation through AI.

As a renowned speaker and facilitator, Bilal has conducted workshops and seminars on AI for business audiences. He is passionate about ethical AI usage and advocates for responsible practices. His insights and expertise make him a sought-after facilitator for masterclasses on using AI tools in the business world.

He is a regular guest lecturer at the University of KZN on the topics of technology and artificial intelligence.

TOPICS COVERED

In this masterclass, we'll dive into various business ideas that can be executed entirely from a smartphone. Our expert instructors will guide you through the process of finding profitable niches, developing mobile-centric business models, and implementing effective strategies to achieve success. You'll gain valuable insights, practical tips, and real-world examples to transform your cellphone into a powerful tool for business.
